ABOUT ME

I'm a brazilian software developer looking for a chance to expand my horizons by working in a healthy and supportive environment abroad. I've always been curious for different knowledges and now is the time to start meeting people, learning new things and making connections with people across different cultures and languages. I love to code. I really do.

So, these are the reasons why I am a great professional: I love what I do, I love connecting to new people and I'm ready for this.

EXPERIENCE

Software Developer Analyst

dti digital

December 2021 – Ongoing

Belo Horizonte MG, Brazil

- Fixing bugs and implementing new features in the client's legacy systems.
- Organizing relevant events for the tribe.

Software Engineer

ProFUSION

August 2021 – October 2021

São Paulo SP, Brazil

- Backend development with TypeScript and GraphQL.

Intern

Usemobile

March 2019 – May 2019

Ouro Preto MG, Brazil

- Android development with Java and Kotlin.

PROJECTS

MyGrana

Android Application

2 years

Proof of concept for my final paper in college. The application, developed with the framework Flutter, is intuitive and clearly presents the main functionalities necessary for undergraduate students' financial organization. From the remote database it is possible to collect user data, which could be used to identify patterns in expenses and incomes. These patterns can be analyzed to generate even more specific and supportive solutions.

Maratonador

Android Application

Work in progress

A tracker for movies and tv shows. It will be able to save the user's data on the cloud, keep a track of watched, watchlists, genres, notify the user when new episodes were aired, among other things.

MY LIFE PHILOSOPHY

"If you can't fly then run, if you can't run then walk, if you can't walk then crawl, but whatever you do, you have to keep moving forward."

STRENGTHS

Hard-working

Eye for detail

Will to learn

Sharp learning curve

Motivator & Leader

Java

Kotlin

Flutter

C

LaTeX

LANGUAGES

Portuguese

English

EDUCATION

Specialization in Android Development – In Progress

EBAC – Escola Britânica de Artes Criativas

July 2021 – January 2022

B.Sc. in Computer Engineering

Universidade Federal de Ouro Preto

March 2014 – May 2021
